Source: NISS. Statistical active balance (V/NISS) 33-12; data include only town provided for based does does consisting of mortgage loans, other housing loans is the sum of mortgage loans, other housing loans is the sum of mortgage loans, other housing loans is the sum of mortgage loans, other housing loans is the sum of mortgage loans where the loans is that his table shows the amounts of housing loans for householders, not of the total mortgage loans. In addition, the difference is also caused by the fact that the report of mortgage controller only comprises those mortgage loans where the ownership rights to real estates have already been registered by the cadastre authority, while this table shows the total amount of outstanding mortgage principal. In addition, the difference is also caused by the cadastre authority has already taken place.

3 Data include building loans and interim loans.

Source: NBS, Statistical active balance (V (NBS) 33-12); data included only loans provided to household sector (S.143, S.144). The table includes only special-purpose loans secured by real estate (housing loans consisting of mortgage loans, other housing loans and building loans); data on any purpose bars secured by real estate are not available.

¹⁾ The total amount of housing loans is the sum of mortgage loans, other housing loans and building loans.

¹ he total amount of housing loans is the sum of mortgage loans, other housing loans and building loans.
2 Shares of banks in mortgage loans in this table and different from the shares reported in the outstanding principals of the mortgage loans received from mortgage controllers. The reason is that this table shows the shares of banks in mortgage loans provided to householders, not the shares of banks in the total mortgage loans. In addition, the difference is caused by the fact that the report of mortgage controller only comprises those mortgage loans, where the ownership rights to real estate have already been registered by the cadastre authority, while the table shows the total amount of outstanding mortgage principal, regardless of whether this entity by the cadastre authority has already taken place.
3 Data include building loans and interim loans.
