For 2003 and 2004, the minimum premium for insurance from the previous year is increased every year by the average rate of annual inflation expressed in terms of the consumer price index published by the Statistical Office of the Slovak Republic (inflation rate). If, however, the increase in the loss ratio in a certain category of motor vehicles exceeded the rate of inflation in the previous year, the minimum premium in the same category will be increased in the following year by the increase in the loss ratio approved by Národná banka Slovenska at the suggestion of the Bureau; the loss ratio for these purposes is defined as the sum of insurance benefits paid by all insurers and the Bureau including the reserves created by them for the payment of insurance benefits²⁹ in relation to the amount of insurance premiums collected by them. The maximum amount of insurance premium must not be higher than the amount of minimum premium increased by 30%.

(6) The first meeting of the members of the Bureau shall be held no later than 31 October 2001. The meeting shall approve the contributions for 2001 and their due date. The meeting shall also approve the share of the contributions that the Bureau may use for its activities during the year.

(7) The Ministry of the Interior of the Slovak Republic shall provide, to the Bureau for purposes specified in Section 25, data from the central register on motor vehicles in electronic form and in the range as at 1 October 2001, no later than 15 October 2001.

Section 28a

(1) The provision of Section 28(5) shall not be applicable in 2004.

(2) The insurer shall be obliged to appoint its claims agent pursuant to Section 15a within three months of the effective date of the Treaty on Accession of the Slovak Republic to the European Union at the latest.

(3) Legal relations arising from liability insurance before 1 November 2003 shall be governed by the existing legislation.
