A. Agreement and Modifications to the Agreement

1. Agreement

a. This order incorporates by reference the terms of the Oracle Java Binary License and Redistribution Agreement No. US-BLRA-17835885-20-MAY-2020 between You and Oracle dated 20-MAY-2020, the Oracle Java SE Subscription for ISVs Addendum No. US-BLRA-JSA-17835885 dated _____, and all amendments and addenda that apply to the ISV Subscription Programs (the "Master Agreement"). The defined terms in the Master Agreement shall have the same meaning in this order unless otherwise specified herein.

2. Master Agreement Modifications - for this order only

a. Native Image Feature

1. Definitions: "Native Image Feature" refers to the optional Native Image Feature and related technology that is identified as "Early Adopter" and provided to You by Oracle as a component of and for use with GraalVM Enterprise Edition software available with the Programs (as further described in the Program Documentation). "Native Image" refers to executables built using the Native Image Feature. "Excluded License" means any license that requires as a condition of use, modification and/or distribution of software subject to the Excluded License, that such software or other software combined and/or distributed with such software be (a) disclosed or distributed in source code form under the terms of the Excluded License or otherwise; or (b) licensed for the purpose of making derivative works.

2. You may only use the Native Image Feature, including Native Images built with it, in accordance with the rights and restrictions in the Master Agreement, subject to the additional restrictions and limitations set forth in this order.

Native Images created using Early Adopter technology include proprietary materials that prevent a Native Image from being placed under an Excluded License or other open source terms. You may not distribute such Native Images under an Excluded License or other open source terms nor take any other action that would have the effect of requiring such distribution. Without limiting the foregoing, You may not distribute any application or code that combines a Native Image, or any portion thereof, with any software that is subject to any version of the GNU General Public License (GPL) or any license with a similar reciprocal license obligation in a manner that would create a combined or derivative work (including but not limited to distribution to any third party contractor, affiliate or subsidiary, or any employee thereof that is not entitled to receive the Programs under this order).

3. The Native Image Feature is subject to ongoing development, testing, and modification. Oracle may significantly change the features and functionality of the Native Image Feature, and future releases may include changes that are incompatible with the current version. Oracle may also place limits on backports. You may be required to change Your application significantly to use future versions of the Native Image Feature. Any development or other work You undertake with the Native Image Feature is at Your sole risk.

THE NATIVE IMAGE FEATURE IS PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND.
