- (b) the company has in place and complies strictly with an order allocation policy that ensures a fair allocation of aggregated orders and transactions under sufficiently precise terms – particularly with respect to how the allocation and terms and conditions for the handling of partially executed orders are determined by factors of amount and price.

(2) Where an SPMC aggregates an order related to a supplementary pension fund with one or more orders related to the management of other supplementary pension funds, and the aggregated order is partially executed, the company shall allocate the related transactions in accordance with its order allocation policy.

(3) Where an SPMC aggregates proprietary transactions with one or more orders related to the management of a supplementary pension fund, it may not allocate related transactions in a way detrimental to the supplementary pension fund.

(4) Where an SPMC aggregates an order related to the management of a supplementary pension fund with a proprietary transaction, and the aggregated order is partially executed, it shall allocate the related transactions preferentially to the supplementary pension fund. If the SPMC demonstrates that without this aggregation the order could not be executed either under advantageous terms or at all, it may allocate the proprietary transaction proportionally in accordance with its order allocation policy.

Section 34d

Incentives

- method by which it is calculated;
2. the payment of the fee or commission, or the provision of the non-monetary payment, must increase the quality of the service for which the fee is paid or non-monetary payment is provided, and it must not prevent the SPMC from fulfilling its obligation to act in the interests of participants and beneficiaries;
- (c) an appropriate fee which allows or is necessary for the provision of the respective services, in particular a safe custody fee, settlement fee, regulated market operator's fee, supervisory fee, administrative fee or a court fee, and which by its nature cannot bring the SPMC into conflict with its obligations to act pursuant to Section 34(2).

(2) For the purposes of paragraph 1(b), point one, SPMCs may provide a participant or beneficiary with a summary of the principal terms and conditions of an agreement concerning fees, commissions or non-monetary payments, provided that they also allow the participant or beneficiary to obtain more detailed information on request; this obligation is deemed to be fulfilled by stating the relevant information in the rules of the respective supplementary pension fund. Národná banka Slovenska may decide to suspend or cancel this authorisation to provide a summary of the principal terms and conditions of the agreement if it finds that the SPMC has not complied with the request of a participant or beneficiary for more detailed information as referred to in the previous sentence.

(4) The outsourcing of activities related to the management of supplementary pension funds is without prejudice to the liability of the SPMC and the depository for any damage caused during the management of a supplementary pension fund's assets to participants or beneficiaries.

(5) SPMCs may not outsource activities to such an extent that it will not be able to check and assume responsibility for the performance of the outsourced activities or will not be able to take decisions concerning the performance of professional activities. Activities may not be outsourced under paragraph 1 so as to circumvent obligations laid down by this Act other than on the basis of an authorisation.

pension beneficiaries in the host Member State, which the competent authority of the host Member State sent to Národná banka Slovenska. An SPMC may commence activity in a host Member State only after receiving such notification from Národná banka Slovenska, or if six weeks have passed without response since Národná banka Slovenska sent the competent authority of the host Member State the notification mentioned in paragraph 3.

(5) After Národná banka Slovenska has received the notification mentioned in paragraph 3, it shall without undue delay take a decision to place all supplementary pension funds managed by the SPMC in receivership. The purpose of receivership shall be to protect the assets of the supplementary pension funds and the interests of participants and beneficiaries in the event that a bankruptcy order is made against the SPMC or a bankruptcy petition against it is rejected on grounds of insufficient assets. (2) It is prohibited for supplementary pension funds to be:

- (a) merged by the formation of a new fund or divided;
- (b) converted into an investment fund under other legislation³⁴ or into a pension fund under other legislation.³⁵

Section 50

Merger of accumulation supplementary pension funds

(1) The merger of accumulation supplementary pension funds means the process by which the assets of accumulation supplementary pension funds are combined so that the assets of the funds being merged become the assets of the accumulation supplementary pension fund into which they are merged. Upon the merger of accumulation supplementary pension funds, the funds' participants shall become participants in the accumulation supplementary pension fund into which the funds are merged.

(2) Only accumulation supplementary pension funds managed by the same SPMC may merge, and only into an accumulation supplementary pension fund as defined in this Act.

(3) Accumulation supplementary pension funds shall dissolve as of the date of their merger. As of that date, participants in the dissolved accumulation supplementary pension funds become participants in the accumulation supplementary pension into which the funds are merged.

(4) SPMCs that intend to merge supplementary pension funds shall inform the funds'

participants of this fact before filing an application for prior approval under Section 26(1)(k); within 30 days after the merger of the accumulation supplementary pension funds, the SPMC shall inform the participants of the merger in accordance with the procedure laid down in the fund's rules for notifying participants of amendments thereto. A participant's share in the assets of the accumulation supplementary pension fund into which accumulation supplementary pension funds are merged shall be proportional to the current value of the participant's personal account as at the date on which the funds merged.

Section 51

Merger of decumulation supplementary pension funds

(1) Decumulation supplementary pension funds may merge only:

- (a) where an SPMC is acquired by another SPMC, in which case the decumulation supplementary pension fund of the acquired company shall be dissolved by merging it with the decumulation supplementary fund of the acquiring company subject to the prior approval of Národná banka Slovenska mentioned in Section 26(1)(e); or

(4) Where supplementary pension funds merge under paragraph 1(a), their merger shall take place on the date when the SPMC merges with the other SPMC.

(5) Where decumulation supplementary pension funds merge under paragraph 1(b), their merger shall take place on the date when the management of the supplementary pension funds is transferred to the SPMC to which the management of funds has passed.

Section 52

Dissolution of a supplementary pension fund

(1) The dissolution of a supplementary pension fund requires the prior approval of Národná banka Slovenska under Section 26(1)(l). A decumulation supplementary pension fund may be dissolved only if all supplementary pension funds managed by the same SPMC are simultaneously dissolved.

(2) A participant may not request the dissolution of a supplementary pension fund.

(3) As at the date immediately preceding the effective date of Národná banka Slovenska's decision to grant prior approval under Section 26(1)(l), the SPMC shall prepare extraordinary financial statements of the dissolving supplementary pension fund. As at the effective date of that decision, the SPMC shall prepare an opening balance sheet of the dissolving supplementary pension fund. Once a decision of Národná banka Slovenska to grant prior approval under Section 26(1)(l) has become effective, the SPMC shall conclude its management of the supplementary pension fund's assets by following the procedure set out in paragraph 4. In order to protect the rights of participants and beneficiaries, Národná banka Slovenska may require this procedure to be carried out by a depository or another SPMC.

(4) SPMCs or person specified under paragraph 3 shall within six months after the occurrence of events under paragraph 3:

- (a) sell the assets of the dissolving supplementary pension fund;
- (b) ensure the repayment of claims attached to the assets of the dissolving supplementary pension fund;

- (d) pay participants and beneficiaries in the dissolving supplementary pension fund their share in the assets of the fund;
- (e) prepare the financial accounts of the dissolving supplementary pension fund as at the date immediately following the date on which all the obligations mentioned in points (a) to (d) are met.

(5) Národná banka Slovenska may at the request of an SPMC extend the deadline referred to in paragraph 4 by up to 12 months, but only if such extension is required to protect participants and beneficiaries against losses that would arise if the assets of dissolving supplementary pension fund were sold within the shorter period of time.

(6) The obligation to comply with risk-spreading limits under this Act does not apply to the sale of assets of a dissolving supplementary pension fund under paragraph 4.

(7) Information on the progress of the procedure under paragraph 4 shall be provided to Národná banka Slovenska at least once each calendar month by the SPMC or person specified under paragraph 3.

Investment of supplementary pension funds' assets and risk-spreading rules for supplementary pension funds

Section 53

(1) SPMCs shall invest the assets of their supplementary pension funds in accordance with the prudential business rules, under paragraphs 2 to 6, only in the types of assets mentioned in Section 53a, and in compliance with risk-spreading rules for supplementary pension funds under Section 53b. In making investment decisions concerning the assets of supplementary pension funds, SPMCs may take into account the environmental factor, the social factor, and the factor of organisation and management.

(2) SPMCs shall invest the assets of supplementary pension funds in the best interests of participants and beneficiaries. In the case of a potential conflict of interests, the SPMC shall ensure that the assets of the supplementary pension fund are invested in the best interests of participants and beneficiaries.

(3) SPMCs shall invest the assets of supplementary pension funds predominantly in assets admitted to trading on a regulated market. The investment of a supplementary pension fund's assets in assets which are not admitted to trading on a regulated market must be kept to prudent levels; prior to making such an investment, the SPMC shall assess all the risks associated with it and its potential impact on the asset returns of the supplementary pension fund. SPMCs shall set internal limits for risks associated with the investment of supplementary pension funds' assets, continuously monitor compliance with these limits, and take measures to counter any risk of these limits being exceeded.

(4) SPMCs shall appropriately spread the investment of supplementary pension funds' assets so as to prevent over-reliance on a given asset or issuer, excessive risk exposure to any asset class, issuer or group of persons, and the accumulation of risk in the overall portfolio of a supplementary pension fund. SPMCs shall not allow a supplementary pension fund's portfolio to have an excessive concentration of exposure to the same issuer, or group of issuers, whether through direct investment or through indirect investment via other instruments or products whose underlyings are exposed to such issuer or group of issuers. If investments in certain asset classes entail a high level of risk, whether by virtue of the nature of the asset or the quality of the issuer, they must be kept to prudent levels.

(5) SPMCs may not circumvent risk-spreading limits under Section 53b in such a way that in addition to investing assets of a supplementary pension fund in transferable securities and money market instruments, bank deposits pursuant to Section 53a(1)(b) and/or derivatives pursuant to Section 53a(2), they concurrently invest assets of the fund in financial instruments mentioned in Section 53b(9) or other instruments whose underlyings are exposed to the same issuer, the same bank or the same counterparty, or whose returns are derived from assets included in the supplementary pension fund. The investment of assets of a supplementary pension fund in other instruments referred to in the first sentence must be taken into account by the SPMC for the purposes of fulfilling the obligation under paragraph 4.

(6) When selling or buying transferable securities or money market instruments from or for the portfolio of a supplementary pension fund and when entering into a derivative transaction, SPMCs shall sell or buy these securities and money market instruments, and shall enter into the derivative transaction, for the best price obtainable in the financial market in favour of the fund's asset portfolio.

(7) SPMCs may not sell, or otherwise dispose of, transferable securities or money market instruments from the portfolio of a supplementary pension fund under a contract stipulating delivery of the securities as a condition precedent for payment of the purchase price.

(8) SPMCs may not buy, or otherwise acquire, transferable securities or money market instruments for the portfolio of a supplementary pension fund under a contract stipulating payment

for the securities as a condition precedent for their delivery, nor may they provide an advance for the acquisition thereof.

(9) SPMCs, in investing assets of a supplementary pension fund, may not make an uncovered sale of financial instruments. For this purpose, an 'uncovered sale' means any transaction in which the SPMC exposes a supplementary pension fund to the risk that it will have to buy the financial instrument at a price higher than the price agreed upon in the transaction and therefore that the fund will make a loss or be exposed to the risk of not being able to deliver the financial instrument that by entering into the transaction it has undertaken to deliver.

(10) The definition of an uncovered sale in paragraph 9 includes short-selling. Short-selling of equities or debt instruments means any sale of equities or debt instruments not held in the supplementary pension fund's portfolio when the sale agreement is concluded; this includes sales where the SPMC borrowed the equities or debt instruments, or concluded an agreement to borrow them for the fund's asset portfolio, in order to deliver them when the transaction is settled. Short-selling does not include:

- (a) the sale of assets from a supplementary pension fund's portfolio under a repurchase agreement concluded between the SPMC and a counterparty, where one party undertakes to sell the securities to the other party at an agreed price and the other party agrees to sell back the securities to that party at a different agreed price;
- (b) a transfer of securities under a securities lending agreement; or
- (c) the conclusion of a derivative contract under which securities are to be sold at an agreed price on a specified date in the future only at financial settlement.

(11) SPMCs shall, at the request of Národná banka Slovenska, provide credible evidence of the fulfilment of the obligations laid down in paragraphs 1 to 9; if an SPMC fails to comply with such request, it is deemed to have breached these obligations.

(12) Národná banka Slovenska may issue a decree stipulating how the obligations laid down in paragraphs 1 to 9 and paragraph 11 are to be fulfilled and how compliance with these obligations is to be demonstrated; this decree shall be promulgated in the Collection of Laws of the Slovak Republic.

Section 53g

(1) Techniques and instruments relating to transferable securities and money market instruments may be used to the credit or debit of a supplementary pension fund, provided that such use is permitted by the fund's rules, that it is for the purpose of efficient portfolio management, and it complies with the conditions and limits laid down in the fund's rules.

(2) If the use of techniques and instruments mentioned in paragraph 1 includes the use of derivatives, the limits laid down by the rules of the supplementary pension fund, referred to in paragraph 1, must be consistent with risk-spreading rules pursuant to this Act and these derivatives must meet the criteria laid down by this Act and the requirements for counterparties in derivative transactions pursuant to Section 53f(2).

(3) Techniques and instruments referred to in paragraphs 1 and 2 may be used only to such an extent that does not change how the assets of the supplementary pension fund are invested or the investment policy and investment objective set out in the fund's rules and does not attract a substantial risk additional to that envisioned in the risk policy; the use of such techniques and instruments must be consistent with the best interests of participants and beneficiaries.

(4) All commissions and fees that an SPMC receives in relation to the use of techniques and instruments mentioned in paragraph 1, adjusted to include the amount of direct and indirect operating costs, shall be added to the assets of the supplementary pension fund.

(5) Where an SPMC uses techniques and instruments mentioned in paragraph 1, it shall ensure that the risks associated with these activities are appropriately handled and managed within the risk management system of the respective supplementary pension fund.

(6) Where an SPMC conducts a transaction as part of techniques and instruments mentioned in paragraph 1, it shall take such operations into account when drawing up a liquidity management system, so as to ensure that it is able to discharge all liabilities arising under Sections 15 to 21.

(7) Národná banka Slovenska shall issue a decree, which shall be promulgated in the Collection of Laws of the Slovak Republic, stipulating:

- (a) the criteria that the techniques and instruments mentioned in paragraph 1 must meet;
- (b) what must be included in any securities lending agreement, securities repurchase agreement, or securities purchase and resale agreement concluded within the use of techniques and instruments under paragraph 1.

(8) Národná banka Slovenska may issue a decree laying down detail provisions on the techniques and instruments mentioned in paragraph 1, and this decree shall be promulgated in the Collection of Laws of the Slovak Republic.

Section 54

(1) The limits and restrictions concerning the assets of a supplementary pension fund laid down in Sections 53a to 53f shall not be apply for the first 12 months after the effective date of Národná banka Slovenska's decision to issue the company's authorisation or after the authorisation was amended in respect of the management of the supplementary pension fund.

(2) Once the period mentioned in paragraph 1 has expired, the SPMC may exceed the limits and restrictions under Sections 53a to 53f only upon the exercise of pre-emptive subscription rights arising from securities or money market instruments included in the assets of the supplementary pension fund, when a cross-border transfer is made pursuant to Section 37c and 37d or when supplementary pension funds are merged. If the limits and restrictions mentioned in Sections 53a to 53f are exceeded as a result of a merger of supplementary pension funds, the SPMC shall bring the assets into line with the limits and restrictions under this Act within six months from the merger, unless Národná banka Slovenska has set a longer time limit.

(3) If any of the limits or restrictions mentioned in Sections 53a to 53f are exceeded for reasons beyond the control of the SPMC, or owing to the exercise of pre-emptive rights under paragraph 2, the SPMC shall without undue delay notify Národná banka Slovenska of this fact and take measures to conform with the limits and restrictions under this Act. This is without prejudice to the obligation of the SPMC to proceed in accordance with the first sentence also in the case that the limits and restrictions under this Act are breached as a consequence of wilful negligence. Transactions made in order to bring the composition of the supplementary pension fund's assets into compliance with the limits and restrictions under this Act shall take precedence over other transactions. The obligation to take measures under the first and second sentences shall not expire upon the imposition of a penalty under this Act.

(4) Národná banka Slovenska may set a time limit for an SPMC to bring the composition of a supplementary pension fund's assets into compliance with the limits and restrictions under this Act. This is without prejudice to the right of Národná banka Slovenska to sanction the SPMC for a breach of the limits and restrictions laid down in Sections 53a to 53f. Národná banka Slovenska may at the request of the SPMC extend the time limit mentioned in the first sentence, on one more occasions, provided that the request is submitted no later than ten working days before the end of the period granted for bringing the composition of the fund's assets into compliance with this Act and that such extension is justified in the interest of protecting participants and beneficiaries.

(5) SPMCs shall inform Národná banka Slovenska without undue delay if the net asset value of a supplementary pension fund has fallen by one third against the fund's average net asset value for the previous six consecutive months.

(1) SPMCs, in managing the assets of supplementary pension funds, shall:

(12) For the purposes of meeting the obligations under paragraph 10, SPMCs shall:

- (a) introduce such risk management measures and procedures that are necessary to ensure that risks associated portfolio positions and their effect on the overall risk profile are measured precisely on the basis of sound and reliable data and that the risk measurement measures and procedures are duly documented;
- (b) if they measure market risk, or calculate global risk related to derivatives pursuant to Section 53f(4) and (5), by the method mentioned in Section 55a(1)(b), perform back-testing in order to examine the functionality of risk measurement measures, with this testing to include forecasts and estimates based on relevant models;
- (c) if they measure market risk, or calculate global risk related to derivatives pursuant to Section 53f(4) and (5), by the method mentioned in Section 55a(1)(b), perform periodical stress testing and analyses of stress scenarios in order to take account of market risks that could adversely affect supplementary pension funds under their management;

Section 55a

Calculation of global exposure related to financial derivatives

(1) A supplementary pension fund's global exposure related to derivatives mentioned in Section 53f(4) and (5) shall be calculated by the SPMC as:

- (a) the incremental exposure and leverage generated by using derivatives, including securities embedding a derivative pursuant to Section 53f(6), which, under Section 53f(4), may not exceed the fund's net asset value and, under Section 53f(5) may not exceed 20% of the fund's net asset value; or
- (b) the market risk exposure of the fund's asset portfolio.

(2) The calculation of a supplementary pension fund's global exposure related to derivatives shall be calculated by the SPMCs at least once every working day.

(3) Where an SPMC calculates global exposure as the exposure mentioned in paragraph 1(a), it shall do so using the commitment approach pursuant to Section 55b. Where an SPMC calculates global exposure as the exposure mentioned in paragraph 1(b), it shall do so using the Value-at-Risk ('VaR') approach pursuant to Section 55c; 'VaR' shall be understood to mean the highest expected loss over a given period of time at a given confidence level.

(4) SPMCs shall ensure that the method selected for measuring global exposure pursuant to paragraph 3 is appropriate for the given supplementary pension fund, and in doing so they shall take into account the investment strategy of the fund, the type and complexity of the derivatives included in the fund's asset portfolio, and the share of these derivatives in the fund's assets.

(5) If as part of its management of a supplementary pension fund, an SPMC uses, pursuant to Section 53g, techniques and instruments that include a securities repurchase agreement, securities purchase and resale agreement or securities lending agreement in order to increase leverage or the level of market risk exposure, the company shall take these transactions into account when calculating global exposure pursuant to Section 53f(4) and (5).

Section 55b

Commitment approach

(1) Where an SPMC uses the commitment approach to calculate a supplementary pension fund's global exposure pursuant to Section 53f(4) and (5), it shall apply this approach to all positions in derivatives, including securities embedding derivatives under Section 53f(6), regardless of whether such positions are taken as part of the fund's investment policy for the purposes of risk mitigation or for the purposes of efficient portfolio management under Section 53g.

(2) When using the commitment approach to calculate a supplementary pension fund's global exposure pursuant to Section 53f(4) and (5), the SPMC shall convert each derivative position into the market value of the equivalent position in the respective underlying.

(3) If the derivative investments of a supplementary pension fund are not generating any incremental exposure for the fund, the SPMC is not required to include positions in the respective underlyings in the commitment.

(4) When calculating the global exposure of a supplementary pension fund, SPMCs may take into consideration hedging and netting arrangements, provided that these arrangements take account of clear and significant risks and result in an appreciable reduction in exposure.

(5) Where an SPMC uses the commitment approach to calculate global risk exposure, the calculation need not include liabilities in the form of loans and credits received pursuant to Section 53a(5) and 53b(11).

(6) If, for the purpose of efficient portfolio management, the rules of a supplementary pension fund allow techniques and instruments relating to transferable securities and money market instruments to be used to the credit or debit of the fund and the use of these techniques and instruments generates additional leverage through the reinvestment of collateral, the SPMC shall take account of the use of these techniques and instruments when calculating global risk using the commitment approach.

(7) Národná banka Slovenska shall issue a decree, which shall be promulgated in the Collection of Laws of the Slovak Republic, laying down:

- (a) methodologies for the conversion of derivative positions pursuant to paragraph 2 for different types of position;
- (b) criteria for determining derivatives that do not generate incremental exposure for the portfolio of a supplementary pension fund pursuant to paragraph 3;
- (c) how the hedging and netting arrangements referred to in paragraph 4 are to be taken into account when calculating global exposure using the commitment approach;
- (d) how the techniques and instruments mentioned in paragraph 6 are to be taken into account when using the commitment approach to calculate global exposure.

(8) Národná banka Slovenska may issue a decree laying down detail provisions on the calculation of global exposure using the commitment approach, and this decree shall be promulgated in the Collection of Laws of the Slovak Republic.

Section 55c

Value-at-Risk approach

(1) Where an SPMC uses the VaR approach to calculate global exposure pursuant to Section 53f(4) and (5), it shall apply this approach to all positions in the fund's asset portfolio.

(2) When using the VaR approach, SPMCs shall, pursuant to Section 55(12)(d), set the maximum VaR in accordance with the defined risk profile of the respective supplementary pension fund.

(3) When using the VaR approach to calculate global exposure, SPMCs shall use either the relative VaR approach or the absolute VaR approach, whichever is appropriate for the risk profile and investment strategy of the respective supplementary pension fund.

(4) SPMCs are required, at the request of Národná banka Slovenska, to demonstrate that the

approach selected under paragraph 3 is appropriate for the respective supplementary pension fund. The company's decision to use the given approach, and the assumptions and grounds on which it is based that decision, must be properly documented.

(5) The approach selected under paragraph 3 shall be used on an ongoing basis.

(6) Národná banka Slovenska shall issue a decree, which shall be promulgated in the Collection of Laws of the Slovak Republic, stipulating:

- (a) how to calculate global exposure using the relative VaR approach;
- (b) how to calculate global exposure using the absolute VaR approach;
- (c) quantitative and qualitative requirements for the VaR approach;
- (d) the maximum limit that may not be exceeded when using the absolute VaR approach.

(7) Národná banka Slovenska may issue a decree laying down detailed provisions on the calculation of global exposure using the VaR approach, and this decree shall be promulgated in the Collection of Laws of the Slovak Republic.

Section 55d

Counterparty risk

(1) SPMCs shall ensure that counterparty risk arising from OTC financial derivatives does not exceed the limits laid down in Section 53b.

(2) When calculating counterparty risk exposure pursuant to Section 53b(7), SPMCs shall use the positive mark to market value of the OTC financial derivative contracts with the counterparty.

(3) When calculating counterparty risk exposure in the portfolio of a supplementary pension fund, SPMCs may net financial derivative positions with the same counterparty provided that they are able, on behalf of the fund, to enforce the netting agreement concluded with the counterparty. Positions netted with the same counterparty may not include positions other than those in OTC financial derivatives.

(4) SPMCs may reduce their counterparty risk exposure pursuant to Section 53b(7) through the receipt of collateral. Collateral received must be sufficiently liquid in order that it can be sold quickly at a price that is close to its pre-sale valuation.

(5) Where an SPMC passes collateral to a counterparty in an OTC financial derivative transaction conducted on behalf of a supplementary pension fund, this must be taken into account in calculating counterparty risk exposure pursuant to Section 53b(7). Collateral passed may be taken into account on a net basis, provided that the SPMC is able, on behalf of the fund, to enforce the netting agreement concluded with the respective counterparty.

(6) SPMCs shall calculate the limits referred to in Section 53b using the commitment approach, on the basis of underlying asset positions arising from the use of financial derivatives.

(7) In the calculation of the limit referred to in Section 53b(8), SPMCs shall include all counterparty risk exposures in the portfolio of the supplementary pension fund which arise from OTC financial derivative transactions.

(8) Národná banka Slovenska shall issue a decree, which shall be promulgated in the Collection of Laws of the Slovak Republic, stipulating:

- (a) requirements for collateral through which SPMCs may reduce counterparty risk;
- (b) rules for the calculation of limits referred to in Section 53b.

Section 55e

Procedures for the valuation of OTC derivatives

(1) SPMCs shall ensure that the valuation of financial derivative positions in the asset portfolios of supplementary pension funds is verified; this is without prejudice to the provisions of Section 53a(2) and Section 53f(2) and (3). Verification pursuant to the first sentence shall consist of establishing whether the valuation of the financial derivative positions corresponds to the fair value, which does not rely only on market quotations by the counterparties of the OTC derivatives.

(2) In the valuation of financial derivatives, the following criteria must be met:

- (a) the basis for the valuation is either a reliable up-to-date market value of the instrument, or, if such a value is not available, a pricing model using an adequate recognised methodology;
- (b) verification of the valuation pursuant to paragraph 1 is carried out by one of the following:
 - 1. a third party which is independent from the counterparty of the OTC derivative, at an adequate frequency and in such a way that the SPMC is able to check it;
 - 2. a unit within the SPMC which is independent from the department in charge of managing the assets and which is adequately equipped for such purpose.

(3) For the purposes of paragraph 1, SPMCs shall introduce, apply and maintain measures and procedures to ensure appropriate, transparent and fair valuation of OTC financial derivative positions in the asset portfolios of supplementary pension funds. SPMCs shall duly document measures and procedures mentioned in the first sentence.

(4) SPMCs shall ensure that the fair value of OTC derivatives is established in an appropriate, accurate and independent way.

(5) Measures and procedures referred to in paragraph 3 must be appropriate and proportionate with regard to the nature and complexity of the respective OTC financial derivatives.

(6) Where measures and procedures relating to the valuation of OTC derivatives involve other parties, the SPMC shall comply with the obligations laid down Section 37(6) in regard to these other parties.

(7) In order to ensure fulfilment of the obligations laid down in paragraphs 1 to 5, SPMCs shall set specific tasks and responsibilities relating to these obligations for the risk management function under Section 29a.

The provisions of the first and second sentences apply mutatis mutandis to assets in an unassigned payments account.

(10) A depository shall continue to fulfil its obligations arising from the depository contract in the event that the SPMC has gone into bankruptcy or restructuring, and shall do so until a depository contract is concluded with the SPMC to which the management of the supplementary

pension funds has been transferred or until all the supplementary pension funds managed by the SPMC have been dissolved in accordance with Section 52.

(8) For the purpose of using supplementary pension funds' assets that are book-entry securities recorded in the issuers' register at the central depository, SPMCs shall, separately for each supplementary pension fund under their management, open and use an independent owner's account. For the purpose of recording and using a supplementary pension fund's assets, SPMCs may not open and use more than one owner's account for each supplementary pension fund under their management, nor use the owner's account mentioned in paragraph 7.

(9) If its depository is a member of the central securities depository, an SPMC shall open owner's accounts under paragraphs 7 and 8 with that depository. (2) If within 90 days from when an unassigned payments account is credited with a contribution, the participant to whom the contribution pertains is identified, the SPMC shall credit supplementary pension points corresponding to the amount of the contribution, and any income from it, to the participant's personal account by no later than the first working day following the date on which the participant was identified ('the participant identification date'). The participant identification date shall be understood to mean the working day on which the SPMC was apprised of all the particulars of this payment. The number of supplementary pension points referred to in the first sentence shall be determined using the current value of the supplementary pension point applicable as at the first working day following the participant identification date. If the participant to whom the payment pertains has not been identified within 90 days after the contribution is credited to the unassigned payments account, the SPMC shall return the contribution, and any income from it, to the payer.

Section 63

(1) A participant may, based on an amendment to the participant agreement, switch from one accumulation supplementary pension fund to another accumulation supplementary pension fund managed by the same SPMC, or change the ratio in which their assets are distributed between supplementary pension funds managed by the same SPMC; no fee for such switch or change in the distribution of assets shall be charged to the participant by the SPMC.

(2) On the day when a participant switches from one accumulation supplementary pension fund to other accumulation supplementary pension fund managed by the same SPMC, the SPMC shall in the participant's personal account close the record of entries relating to the accumulation supplementary pension fund from which the participant is switching (hereinafter the 'transferor supplementary pension fund'), and within a period of five working days it shall establish in the personal account a record of entries relating to the accumulation supplementary pension fund to which the participant is switching (hereinafter the 'transferee supplementary pension fund'). The participant shall be a participant in the transferor supplementary pension fund until the day preceding the date on which a record is established in the transferee supplementary pension fund. (3) Within five working days after the switching date, the SPMC shall transfer the amount corresponding to the current value of the participant's assets in the transferor supplementary pension fund as at the switching date to the current account of the transferee supplementary pension fund. (4) On the switching date, the SPMC shall deduct from the participant's personal account all supplementary pension points of the transferor supplementary pension fund and, within five working days at the latest, credit that account with such number of supplementary pension points of the transferee supplementary pension fund which corresponds to the quotient of the current value of the assets in the transferor supplementary pension fund and the current value of the supplementary pension point of the transferee supplementary pension fund.

(5) Where a participant requests a change in the ratio in which their assets are distributed between supplementary pension funds managed by the same SPMC, the date of the change in the asset distribution ratio shall be the day following the date on which the participant's request for this change was delivered to the SPMC. Within five days after this date, the SPMC shall make the change in the asset distribution ratio referred to in the first sentence, so that the distribution ratio of the participant's assets between accumulation supplementary pension funds, as stated in the participant's personal account, is aligned with the asset distribution ratio stated in the request. The change in the asset distribution ratio mentioned in the first sentence and second sentence shall not give rise to a change in ratio in which future contributions, and income from these contributions, is credited. If the date on which the change in the asset distribution ratio falls on a Saturday or non-working day, the last sentence of paragraph 3 applies equally to this date.

Section 64

(1) Participants may switch from their accumulation supplementary pension fund to an accumulation supplementary pension fund managed by a different SPMC on the basis of a written application; after receiving a participant's application for such a switch, the SPMC from which the participant is switching shall effect the switch within 30 days. Beneficiaries may not switch to another decumulation supplementary pension fund managed by a different supplementary pension company.

(2) Unless otherwise agreed between the participant and the SPMC, the switching date shall be the date following the day on which the SPMC received the participant's application to switch to another SPMC. On the switching date, the SPMC from which the participant is switching and the SPMC to which the participant is switching shall, respectively, close and establish the participant's personal account. On the switching date, the participant shall be a participant in the accumulation supplementary pension fund of the SPMC from which the participant is switching.

(3) The SPMC from which a participant is switching shall, within one month after the switching date, transfer an amount corresponding to the current value of the participant's personal account as at the switching date to the unassigned payments account of the SPMC to which the participant is switching. (4) Prior to the closing of a participant's personal account under paragraph 2, the SPMC from which the participant is switching shall deduct from that account all supplementary pension points of the accumulation supplementary pension fund under its management. On the date when the amount mentioned in paragraph 3 is transferred, the SPMC to which the participant is switching shall credit the current account held by the supplementary pension fund with the depository with such number of supplementary pension points for the participant which corresponds to the quotient of the amount transferred under paragraph 3 and the current value of the supplementary pension point on the day preceding date on which the pension points were credited.

(5) Before a participant's personal account is closed pursuant to paragraph 2, the SPMC from which the participant is switching shall notify the SPMC to which the participant is switching of information required for the purposes of complying with this Act. A list of these items of information and details of how the obligation under the first sentence is to be fulfilled may be laid down by the Ministry in a decree; the full text of such a decree shall be promulgated by publication in the Collection of Laws of the Slovak Republic.

 - 3. add, to the number of supplementary pension points in the participant's personal account kept for a successor participant agreement, the number of supplementary pension points in the participant's personal account kept for an expiring participant agreement if the supplementary pension fund determined by the participant in the expiring participant agreement and that determined in the successor participant agreement are identical.

(2) If the supplementary pension fund determined by a participant in an expiring participant agreement and that determined in a successor participant agreement are not identical, the participant shall, until the date of the previous crediting of supplementary pension points to the participant's personal account kept for a successor participant agreement, be a participant in the supplementary pension fund determined by the participant in the expiring participant agreement.

- (e) the restriction or suspension of the undertaking of new transactions by the SPMC; for such transactions, the SPMC shall require the prior approval of Národná banka Slovenska.

(2) Národná banka Slovenska may impose recovery measures on an SPMC where the company:

- (a) has seriously failed to fulfil an obligation laid down by this Act or by other legislation and the resulting situation may impair the ability of the SPMC to meet liabilities arising from its performed activities;
- (b) reports losses which if settled out of the disposable funds of the SPMC would lead to a reduction in its share capital to below the level mentioned in Section 22(8).

(3) Národná banka Slovenska shall require an SPMC to adopt recovery measures if the company has ceased to meet the capital adequacy requirement under this Act.

(4) Within 30 days after the delivery of a decision requiring an SPMC to adopt recovery measures, the management board of the company shall submit a draft of the recovery measures to Národná banka Slovenska. The draft recovery measures must have been approved by the management board and the supervisory board of the company. Within 20 days after receiving of the draft recovery measures, Národná banka Slovenska shall approve or reject them. If within this time limit, Národná banka Slovenska does not delivered a decision to reject the submitted recovery measures to the SPMC, the draft measures are deemed to be approved.

(5) As of the date on which an SPMC receives a decision requiring it to adopt recovery measures, the right of participants to switch from a fund managed by this company to one managed by another SPMC in accordance with Section 63 or 64 shall be suspended for the period stated in the decision.

Section 73

Suspension of the exercising of the shareholder rights

(1) Where a natural person or legal person has performed an act constituting a breach of Section 26(1)(a), or has obtained prior approval under Section 26 on the basis of false information, or is reasonably suspected by Národná banka Slovenska of having breached Section 26(1)(a), Národná banka Slovenska may suspend that person's right to attend and vote at a general meeting of the SPMC and that person's right to request the convening of an extraordinary general meeting of the SPMC. Národná banka Slovenska may also suspend from exercising such rights any person whose actions in regard to the SPMC are detrimental to the proper and prudential conduct of the business of the company.

(2) From its issuer's register and list of shareholders, an SPMC shall submit to Národná banka Slovenska an extract produced on a relevant date that is no later than five working days before the date of its general meeting. The SPMC shall submit this extract to Národná banka Slovenska on the date it was produced. Národná banka Slovenska shall without delay name in writing on the extract the person whose rights mentioned in paragraph 1 are suspended and shall deliver the extract to the SPMC no later than the day preceding the date of the general meeting.

(3) For the person named in writing on the extract under paragraph 3, proceedings to suspend the exercise of rights mentioned in paragraph 1 are deemed to have commenced also where Národná banka Slovenska has newly established a reason to suspend this person's rights mentioned in paragraph 1.

(4) A decision on suspending a person's rights mentioned in paragraph 1 shall be delivered by Národná banka Slovenska to that person and to the SPMC prior to the commencement of the general meeting. This decision shall be binding upon the SPMC. Delivery of a decision on a preliminary ruling to a proxy authorised to represent the person concerned at the general meeting shall also be deemed delivery.

(5) SPMCs shall not permit the attendance at their general meeting of a person named by Národná banka Slovenska under paragraph 2 or paragraph 3, nor persons authorised to act on their behalf in proceedings.

(6) Shares to which attach rights suspended under paragraph 1 shall not, for so long as the suspension is in force, be deemed voting shares. These shares shall not be taken into consideration when determining whether the general meeting has a quorum or for decisions of the general meeting. The resulting increase in the proportion of the voting rights held by other persons stated in the extract submitted by the SPMC under paragraph 3 shall not require the prior approval of Národná banka Slovenska under Section 26.

(7) If the reasons for the suspension of rights mentioned in paragraph 1 have ceased to exist, Národná banka Slovenska shall without undue delay lift the suspension. Entities requested by Národná banka Slovenska to publish this decision shall comply with this request.

(8) Národná banka Slovenska may petition a court to annul a decision made by the general meeting of an SPMC on grounds that the decision is in breach of the law or the company's articles of association. This right shall, however, expire if Národná banka Slovenska has not exercised it within three months after the general meeting passed the decision or, if the general meeting was not duly convened, from the date when Národná banka Slovenska could have learnt of the decision.

Section 74

Receivership of a supplementary pension fund

(1) For the purposes of this Act, 'receivership' means the management of a supplementary pension fund that has been placed in receivership under an enforceable decision of Národná banka Slovenska. Receivership shall be conducted by a receiver appointed under the decision of Národná banka Slovenska to place the pension fund in receivership.

(2) The principle purpose of receivership shall be:

- (a) to protect the supplementary pension fund's assets from damage or the exacerbation of damage and to stop the depreciation of these assets;
- (b) to ascertain the actual balance of the supplementary pension fund's assets, if this is not ascertainable under other provisions of this Act.

(3) Národná banka Slovenska shall place a supplementary pension fund in receivership whenever:

- (a) it suspends for a stipulated period and to a stipulated extent the handling of the supplementary pension fund's assets and assets in the unassigned payments account;
- (b) it revokes the authorisation of the SPMC;
- (c) a petition for a bankruptcy order against the SPMC, or a petition for its restructuring, has been submitted;
- (d) criminal proceedings are begun against the SPMC for a crime that carries a potential sentence of dissolution of the legal person or seizure of its assets;
- (e) this Act so stipulates.

(4) Národná banka Slovenska shall appoint as the receiver of a supplementary pension fund the depository of the fund. If the depository cannot be appointed as the receiver, Národná banka Slovenska shall appoint as the receiver another legal person that is authorised under this Act to perform the activities of a depository.

(5) The substitute receiver under paragraph 4 shall be another legal person authorised under this Act to perform the activities of a depository.

(6) If Národná banka Slovenska places a supplementary pension fund in receivership, the

SPMC shall hand over the management of the fund and all related documents to the designated receiver no later than 15 days after the delivery of the decision to place the fund in receivership or within a time limit laid down by Národná banka Slovenska. As of the date when the decision is delivered, the supplementary pension fund shall be placed in receivership and all persons concerned will be subject to the receivership. An appeal against a decision of Národná banka Slovenska to place a pension fund in receivership shall not have suspensory effect. When a pension fund is placed in receivership, the powers of the SPMC in regard to the supplementary pension fund shall pass to the receiver. The receiver shall be entered in the Commercial Register on the basis of an application filed by Národná banka Slovenska. The SPMC and receiver shall without undue delay submit to Národná banka Slovenska a report on the handover of the supplementary pension fund's management to the receiver.

(7) Once a supplementary pension fund has gone into receivership, the right of participants in the fund to switch to another fund under Section 63 or Section 64 shall be suspended until the termination of the receivership.

(8) Within 30 days after the termination of receivership, the receiver appointed under Section 71(1)(m) shall hand back management of the supplementary pension fund to the SPMC; this also applies where receivership ordered under Section 41(6) terminates upon the effective date of a court's decision to reject the bankruptcy petition. Within 30 days after the effective date of a decision of Národná banka Slovenska under Section 71(3) or Section 41(6)(b), the receiver appointed under Section 71(1)(m) or Section 71(5) shall hand back management of the supplementary pension fund and related documentation to the SPMC specified in the decision of Národná banka Slovenska.

(9) The provisions of this Act governing the obligations of an SPMC in regard to the management of a supplementary pension fund also apply to a receiver. A receiver shall manage a supplementary pension fund only to the extent necessary to protect the interests of participants and beneficiaries, and in so doing it is bound by the restrictions laid down in the decision to place the fund in receivership.

(10) A receiver shall act in its own name and for the account of participants and beneficiaries; a receiver shall-

- (a) manage the assets under management with professional care;
- (b) have regard to the protection of the interests of participants and beneficiaries;
- (c) keep separate accounts for each supplementary pension fund under such management.

(11) For conducting receivership, a receiver shall be entitled to remuneration proportional to the period of receivership and provided under the same conditions as were attached to the agreed remuneration of the SPMC for the management of the pension fund.

(12) Receivership shall terminate upon the date stipulated in the decision of Národná banka Slovenska to place the pension fund in receivership or in the decision of Národná banka Slovenska to terminate the receivership.

(13) Národná banka Slovenska shall without undue delay appoint a new receiver where:

- (a) the receiver is recalled;
- (b) the receiver resigns their position by giving notice in writing to Národná banka Slovenska;
- (c) the receiver is in breach of their obligations;
- (d) the receiver is no longer authorised to perform the activities of a depository.

(14) An appeal against the decision mentioned in paragraph 12 shall not have suspensory effect.

(15) A receiver that is changed for a reason mentioned in paragraph 13(b) or (c) is required to fulfil the obligations of the receiver until the effective date of the decision of Národná banka Slovenska on the appointment of a new receiver.

(16) The provisions of paragraph 5 apply to the appointment of a new receiver under paragraph 13.

Section 75

Suspension of the handling of a supplementary pension fund's assets and assets in the unassigned payments

Where Národná banka Slovenska issues a decision to suspend the handling of a supplementary pension fund's assets and assets in an unassigned payments account under Section 71(1)(m), the SPMC shall, from date when the decision is delivered, be allowed to handle the fund's assets and assets in the unassigned payments account only to the extent stipulated in the decision.

Section 76

Revocation of an authorisation

(1) Národná banka Slovenska shall revoke an authorisation where the own funds of the SPMC have fallen to below 75% of the amount needed to meet the capital ratio or where the SPMC has ceased to be without a criminal record.

(2) Národná banka Slovenska may revoke an authorisation where:

- (a) the authorisation was issued on the basis of false or incomplete information;
- (b) there has been a serious change in any facts relevant to the issuance of the authorisation;

- (d) the SPMC has failed to fulfil the conditions for the commencement of activities within the time limit stipulated in the authorisation;
- (e) the SPMC has not handed over the management of a supplementary pension fund to the receiver.

(3) Where an authorisation is revoked under paragraph 2, Section 71(3) does not apply.

(4) Where Národná banka Slovenska revokes an authorisation, it shall also, from the date when the decision is delivered, place the supplementary pension funds managed by the SPMC in

receivership and appoint a receiver.

(5) As of the date when an SPMC receives the decision to revoke its authorisation, the company may not perform activities under this Act.

(6) Within 30 days after the effective date a decision to revoke an authorisation, Národná banka Slovenska shall send the decision for publication in the Commercial Bulletin.

(7) The revocation of an authorisation shall be entered in the Commercial Register. Within 15 days after the effective date of the decision to revoke an authorisation, Národná banka Slovenska shall file an application to have the revocation entered in the Commercial Register.

Section 77

Production of a transformation project

(1) A supplementary pension insurance company may transform into an SPMC in the legal form of a joint-stock company in accordance with this Act, unless otherwise provided hereunder. (3) If the management of a supplementary pension insurance company does not convene a founders' meeting within the time limit mentioned in paragraph 2, the Minister of Labour, Social Affairs and Family of the Slovak Republic shall convene such meeting within 60 days after 1 January 2005.

(4) Persons defined as founders for the purposes of the transformation of a supplementary pension insurance company under this Act shall include legal persons and natural persons who prior to 31 December 2003 provided a purpose-specific contribution to the company, or acquired from a founder, or a founder's successor, under paragraph 2 such contribution, or part thereof, or rights attached to such contribution, or who prior to 31 December 2003 provided funding to ensure the performance of supplementary pension insurance activities on the basis of a contract with the supplementary pension insurance company, whether or not they had the position of a founder under other legislation.⁴⁹

(5) The management of a supplementary pension insurance company shall not invite to the founders' meeting any founder who is in liquidation, who is subject to a bankruptcy order, who is subject to an authorised settlement, or against whom a petition for a bankruptcy order has been rejected on grounds of insufficient assets.

(6) On the decision of the founders' meeting, a notarial deed attesting to the decision to produce a transformation project shall be drawn up; this deed shall list the names of the founders who attended the founders' meeting and state the result of the vote on the production of a transformation project.

(8) In order to pass a resolution on the production of a transformation project (hereinafter 'the resolution'), the founders' meeting must approve the resolution with at least a two-thirds majority of the votes of the founders present. Each founder shall have one vote for each SKK 10,000 of their purpose-specific contribution to the company.

(9) Following approval of the resolution, the further process of the transformation of the supplementary pension insurance company shall be governed by the founders' meeting. At the same time, the competence to appoint and recall the company's management shall pass to the founders' meeting. In order to appoint or recall the company's management or to take another decision within the transformation process, the founders' meeting must approve such decision with at least a two-thirds majority of the votes of the founders present. Section 80

The equity of a supplementary pension insurance company for the purposes of a transformation project

(1) For the purposes of a transformation project, a supplementary pension insurance company shall ascertain the amount of equity under paragraph 2.

(2) For the purposes of a transformation project, the equity of the supplementary pension insurance company shall be the difference between the company's assets and liabilities expressed in monetary terms. The assets and liabilities expressed in monetary terms shall be the assets and liabilities as recorded in the audited financial statements of the supplementary pension insurance company, prepared on the basis of data not older than three months as at the date on which the transformation project was approved, excluding real estate under Section 79(2)(d), the value of which in monetary terms shall be determined by an expert's report. For the purpose of calculating the value of the equity, the assets of the supplementary pension insurance company shall not include the value of assets corresponding to the outstanding amount of the company's reserve fund, the company's income (revenue) under other legislation,⁴⁹ and real estate to which the company acquired ownership title from paid-up supplementary pension insurance contributions, other than gifts and legacies under other legislation,⁴⁹ unless this Act provides otherwise. For the purpose of calculating the value of equity, the liabilities of the supplementary pension insurance company shall not include the value of liabilities towards persons insured with the supplementary pension insurance company or receiving supplementary insurance benefits from the company, or the outstanding amount of the company's reserve fund.

(3) For the purpose of calculating equity, assets may include real estate to which the supplementary pension insurance company acquired ownership title from paid-up supplementary pension insurance contributions only if, no later than 15 days after the approval of the transformation project, the founders undertake to pay the value of such real estate, determined on the basis of an expert's report, into the assets that will constitute the accumulation supplementary pension fund and the decumulation supplementary pension fund in the ratio of the liabilities of the supplementary pension insurance company towards persons insured with the company and persons receiving supplementary insurance benefits from the company, and to do so as at the incorporation date of the SPMC.

(4) The sum value of the share capital and reserve fund of the SPMC may not be higher than the equity of the supplementary pension insurance company under paragraph 2.

Section 81

Establishment of an SPMC

(1) On the basis of a transformation project, the supplementary pension insurance company shall, as the sole founder, establish an SPMC and shall make a non-cash contribution to the SPMC, namely the supplementary pension insurance company, which for the purposes of this Act is deemed an undertaking under Section 5 and Section 59(4) of the Commercial Code. The provisions of Section 59(2), third sentence, Section 477(3), the part of the sentence after the comma, and Section 478 of the Commercial Code do not apply. The provisions of the approved transformation project shall be binding on the supplementary pension insurance company, SPMC and founders.

(2) The value of the non-cash contribution to the SPMC shall comprise the amount of the equity of the supplementary pension insurance company determined under Section 80(2). Thus determined, the value of the non-financial contribution to the SPMC constitutes the sum of the contribution to the company's share capital and the value of the reserve fund established as at the date of the company's incorporation. Section 58(1) of the Commercial Code does not apply in respect of the establishment and incorporation of an SPMC. Section 59(3) of the Commercial Code applies, *mutatis mutandis*, to the provisions of Part Thirteen of this Act.

(3) The share capital of an SPMC shall be at least SKK 50,000,000 and must be fully paid-up at its establishment. The reserve fund of an SPMC at its incorporation shall be at least 10% of the value of its share capital, but not less than SKK 5,000,000. If the equity of a supplementary pension insurance company under Section 80 does not amount to SKK 55,000,000, the founders who are to become the first shareholders of the SPMC under Section 78(3) shall increase their contributions to the supplementary pension insurance company in proportion to their share in the share capital of the SPMC, so that the equity of the supplementary pension insurance company amounts to at least SKK 55,000,000, and they shall do so within the time limit under Section 83(1).

(4) On the basis of the transformation project, the supplementary pension insurance company shall establish an SPMC without an invitation to subscribe for shares. The deed of incorporation of the SPMC shall be drawn up in the form of a notarial deed on a legal act.

(5) The deed of incorporation shall contain, in addition to the elements specified in other legislation,²⁵ information on the shares in the share capital of the SPMC which the founders, as its future shareholders, are to hold.

Section 82

Issuance of an authorisation

(1) Sections 23 to 25, with the exception of Section 23(1)(a) and (4)(e), apply equally to the issuance of an authorisation for an SPMC. A dissenting opinion under Section 78(2) may constitute grounds for refusing an application for an authorisation.

(2) An authorisation may include a condition requiring an increase in contribution to the supplementary pension insurance company under Section 81(3). A founder shall prove to Národná banka Slovenska that this condition has been met. If the founders fail to meet this condition within the time limit under Section 83(1), the authorisation shall expire.

Section 83

Incorporation of an SPMC

(1) An application to incorporate an SPMC in the Commercial Register shall be submitted by the company's management board within 30 days after the issuance of the authorisation by Národná banka Slovenska under Section 82. This application shall be signed by all members of the management board of the SPMC. The application to incorporate the SPMC in the Commercial Register shall include the approved transformation project and the legally valid authorisation issued

by Národná banka Slovenska. A document confirming that the non-cash contribution to the SPMC has been paid up before the company's incorporation shall not be attached to the application to incorporate the company in the Commercial Register.

(2) As of the date on which the SPMC is incorporated, the supplementary pension insurance company shall dissolve and be deleted from the register of supplementary pension insurance companies. The SPMC shall be the legal successor of the supplementary pension insurance company. The SPMC shall satisfy the claims of the founders who did not approve the transformation of the supplementary pension insurance company, in the amounts determined under Section 79(2)(g).

(3) As of the date on which the SPMC is incorporated, all rights and obligations of a supplementary pension insurance company as the founder and subscriber of the shares of the SPMC shall pass to the founders in the proportion specified in the approved transformation project and deed of incorporation.

(4) The ownership title to the non-cash contribution shall pass to the SPMC on the date of the company's incorporation. The document for recording the transfer of the ownership title to real estate in the Land Register shall be listing of the pieces of real estate which forms an integral annex to the deed of incorporation. As at the date on which the SPMC is incorporated, the founder shall hand over, and the SPMC shall accept, the assets included in the non-cash contribution. A statement on the handover and acceptance of these assets shall be drafted and signed by both parties. The provisions of Section 60 and Section 483(3) of the Commercial Code do not apply in this case.

(5) As of the date on which the SPMC is incorporated, assets corresponding to the value of the liabilities of the supplementary pension insurance company towards persons insured with the supplementary pension insurance company shall pass to the assets of the accumulation supplementary pension fund, and assets corresponding to the value of the liabilities of the supplementary pension insurance company towards persons receiving supplementary insurance benefits from the company, other than assets corresponding to the value of liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company in which the risk of survival to a stipulated age is taken into account, shall pass to the assets of the decumulation supplementary pension fund. The value of the liabilities of the supplementary pension insurance company shall be divided between the accumulation supplementary pension fund and the decumulation supplementary pension fund so that the value of liabilities of the supplementary pension insurance company towards persons insured with the supplementary pension insurance company passes to the accumulation supplementary pension fund and the value of liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company, excluding the value of the company's liabilities towards persons receiving supplementary pension insurance benefits in which the risk of survival to a stipulated age is taken into account, shall pass to the decumulation supplementary pension fund. Assets corresponding to the outstanding amount of the reserve fund of the supplementary pension insurance company following the deduction of assets corresponding to the difference between assets necessary for paying the premium to the insurance company under the insurance contract mentioned in Section 79(2)(q) and assets corresponding to the value of liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company in which the risk

of survival to a stipulated age is taken into account shall be divided as at the incorporation date of the SPMC between the accumulation supplementary pension fund and the decumulation supplementary pension fund in the ratio of the value of the liabilities of the supplementary pension insurance company towards persons insured with the company and the value of liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company, other than the value of liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company in which the risk of survival to a stipulated age is taken into account. As of the date on which the SPMC is incorporated, those assets not transferred to the assets of the accumulation supplementary pension fund or to the assets of the decumulation supplementary pension fund according to the first sentence and the third sentence shall pass to the assets of the SPMC, and those liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company in which the risk of survival to a stipulated age is taken into account shall pass to the liabilities of the SPMC. As at the date on which the SPMC is incorporated, the founder of the SPMC and the SPMC shall produce a statement specifying the amount of the assets and liabilities of each of these funds.

(6) As of the date on which the SPMC is incorporated, all rights and obligations resulting from employment relations with employees of the supplementary pension insurance company⁵¹ shall pass to the SPMC.

(7) Within three months after its incorporation, the SPMC shall prepare the closing financial statements of the supplementary pension insurance company that constituted a corporate contribution to the SPMC, and shall prepare the opening financial statements. If the amount of assets of supplementary pension funds, as determined in the opening financial statements, is less than the amount of liabilities towards persons insured with the supplementary pension insurance company and persons receiving supplementary pension insurance benefits from the company, excluding liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company in which the risk of survival to a stipulated age is taken into account, as determined in the closing financial statements, the SPMC shall transfer to the assets of the supplementary pension funds managed under its management such amount of its own assets so that the supplementary pension funds' assets as determined in the opening financial statements are equal in amount to the liabilities of the supplementary pension insurance company towards persons insured with the supplementary pension insurance company and persons receiving supplementary pension insurance from the company, excluding liabilities of the supplementary pension insurance company towards persons receiving supplementary pension insurance benefits from the company in which the risk of survival to a stipulated age is taken into account.
